Re: **2019 Annual Report for Net Metering for Renewable Energy Rider
Docket No. 2005-385-E**

Dear Ms. Boyd:

Pursuant to S. C. Code Ann. § 58-40-20(E), Duke Energy Progress, LLC ("DEP") is required to file an annual net metering report, including the following information from the previous calendar year: (1) the total number of customer-generator facilities; (2) the estimated gross generating capacity of its net-metered customer-generators; and (3) the estimated net kilowatt-hours received from customer-generators.

In Order No. 2009-552 ("Order"), issued in Docket No. 2005-385-E, the Public Service Commission of South Carolina ("Commission") required DEP to report annually to the South Carolina Office of Regulatory Staff ("ORS"), the South Carolina Energy Office, and the Commission, the number of net metering customers by renewable energy generator type on DEP's system, within 45 days after December 31 of each year.

By this letter, and in compliance with the Order, DEP hereby notifies the Commission and ORS that, as of December 31, 2019, (1) DEP had 1307 net metering customer-generator facilities, all of which were solar photovoltaic systems; (2) the estimated gross generating capacity of DEP's net-metered customer generators was 17,316 kilowatts AC, and (3) the estimated net kilowatt-hours received from customer generators during 2019 was 8,780,527 kilowatt-hours.

The Honorable Jocelyn G. Boyd

By copy of this letter and pursuant to the Order, DEP is providing the ORS and the South Carolina Energy Office with this report.

Sincerely,

A handwritten signature in blue ink, appearing to read "Rebecca Dulin". The signature is fluid and cursive, with the first name "Rebecca" and the last name "Dulin" clearly distinguishable.

Rebecca J. Dulin
